- Other

Send results to:

Processing fees per sticky trap:
Baseline processing of trap - Free
PCR test of *Haploxius crudus* for phytoplasma (sequence confirmation included) - \$10 per insect
Pooled testing of *Haploxius crudus* (10 individuals max.) - \$75

Number of Traps: _____ **Test all *Haploxius crudus* Individually:** Yes No Follow-up
Test all *Haploxius crudus* Pooled: Yes No Follow-up

**Please make checks payable to 'University of Florida' Amount Enclosed:* _____

**Baseline processing includes a count of how many *Haploxius crudus* are present, after initial processing, the results will be provided.

***After baseline processing, guidance will be provided on the next step and I will work with you to determine the number of insects that are recommended to test for phytoplasma, at which point and invoice will be generated.

Sample Information (* indicates mandatory information):

*County	*City	*Palm Species	*Date Trap Placed	*Date Trap Collected	Nearest LB case within 2 yrs

Comments: _____

Important: Traps should not be left in the field for more than 2 weeks. After 2 weeks, DNA begins to significantly degrade, reducing the accuracy of test results.

<u>Official Use Only</u>
